

My Internship Experience with NOC Vietnam

ETP3205 Final Presentation
23 July 2024

Hi, I'm Rithani!

I'm a year 1 computer science student studying at
the National University of Singapore

Introduction to Buymed

Company Overview:

- E-commerce pharmaceutical distribution platform
- Connects pharmacies, hospitals, and pharmaceutical manufactures
- Founded in **2018**, raised over **50 million USD** in Series B round

Also known as **Thuocsi**, which translates to “medicine” in Vietnamese

Company Overview

Key Aspects

- Operates as a **B2B platform** for pharmaceutical distribution
- Partners with reputable suppliers and guarantees **product authenticity** with invoice
- Minimizes delays, reduces costs, and ensures timely delivery of medical products.

People

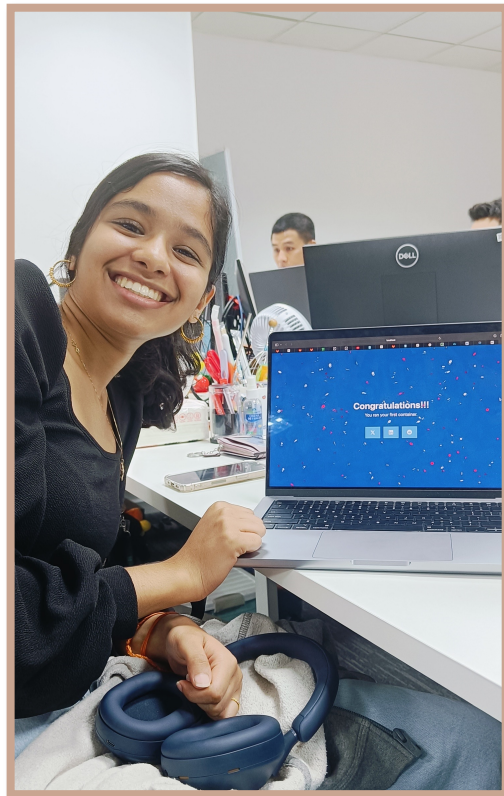

- **500+** employees, **70+** in tech team
- Almost all Vietnamese
- Very kind, down-to-earth, and supportive people

Internship Scope

My role: **Software Engineer**

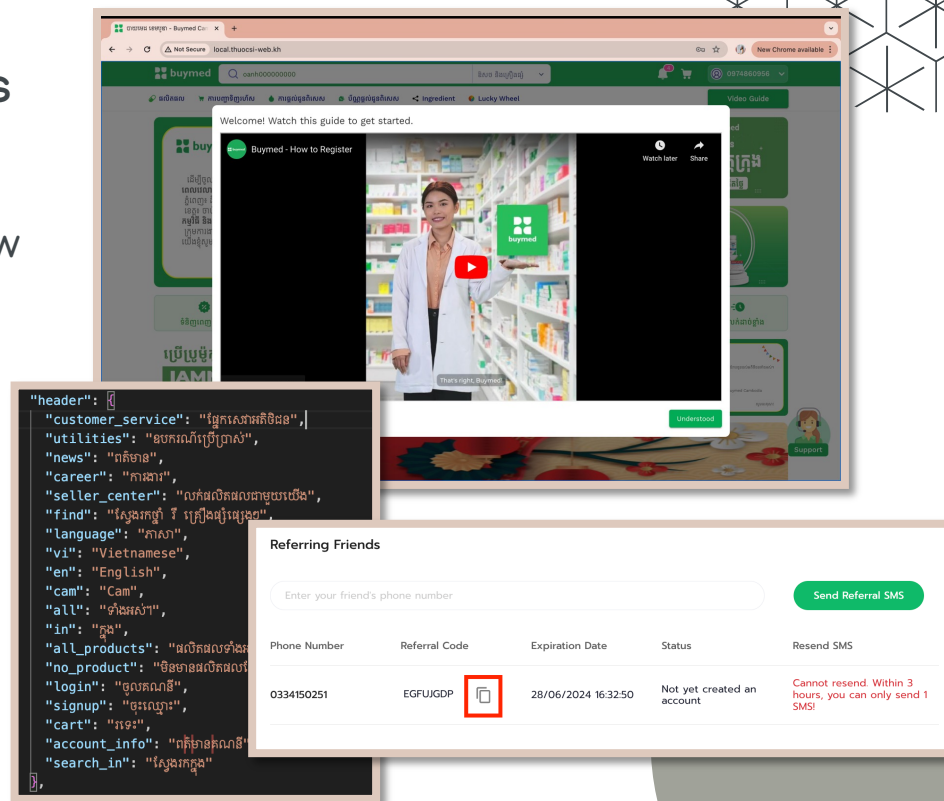

1. Work on Thailand and Cambodia systems
 - a. Develop new features
 - b. Resolve bugs
2. Get familiar with Buymed's tech stack and codebase for development
3. Retrieve competitor product information for price comparison

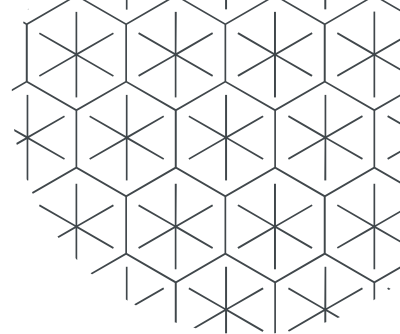

My Work at Buymed

Thailand and Cambodia Systems

- ❑ Enhanced the **Thailand and Cambodia** websites by adding new features
- ❑ Identified and resolved bugs
- ❑ **Tech Stack:** React, Next.js, JavaScript, HTML/CSS, VS Code

My Work at Buymed

The screenshot shows a web application interface with a green navigation bar at the top containing links like CMS, Product, Region, Fee, Delivery, Setting, Customer level, Order setting, Ticket, Order, and Accounting. Below the navigation bar is a blue header for the 'List of competitors product prices' section. A search bar with the placeholder 'Enter product name' and a 'Clear Search' button is present. Below the search bar, there are tabs for different regions: ALL (28376), DNCENTER (4772), SP DRUG STORE (4138), CHATCHAI PHARMACY (10967), HATYAI PK DRUG CENTER (4118), and CNY PHARMACY (4381). The 'ALL' tab is selected. The main content area displays a table with columns: PRODUCT NAME, BUYMED PRODUCT, WEBSITE, LINK, PRICE, and ACTIONS. Three rows of data are visible, each representing a different product and its price across various websites.

PRODUCT NAME	BUYMED PRODUCT	WEBSITE	LINK	PRICE	ACTIONS
2356 - PANADOL 500MG 15X10'S [ZPL-GSK CONSUMER]	-	CHNY Pharmacy	View product	1668	⋮
2483 - PANADOL 500MG 10'S	-	Chatchai Pharmacy	View product	118	⋮
2483[1] - PANADOL 500MG 10'S	-	Chatchai Pharmacy	View product	1658	⋮

The screenshot shows a MongoDB query result in a web interface. The query is: `Type a query: { field: 'value' } or Generate query`. The result is a JSON array of two objects. Each object contains product details such as slug, website, created_time, image_url, last_updated_time, name, price, and price_history.

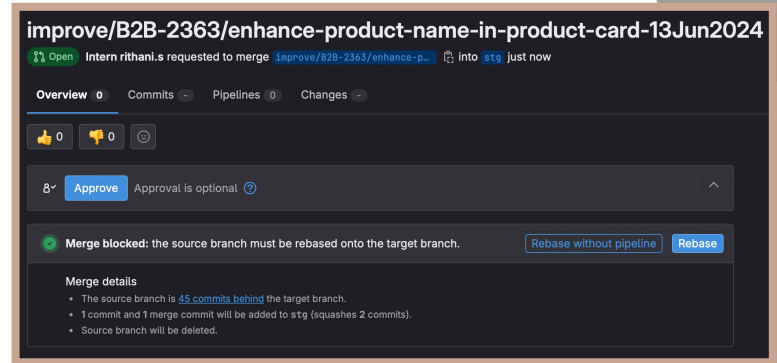

```
{
  "_id": "ObjectID('6091860fc46a35f287152a3')",
  "slug": "/product/6388",
  "website": "https://www.sdrug.com",
  "created_time": "2024-07-12T18:10:12.611+00:00",
  "image_url": "https://img-proxy.thuocsi.vn/thuocsi-testing/images/202408097fa9b885.",
  "last_updated_time": "2024-07-12T10:30:14.638+00:00",
  "name": "POLICYCLINE 100mg 50x10s (doxycycline)",
  "price": 537,
  "price_history": {
    "product_id": "6388",
    "unit_name": "m. 50mg"
  }
},
{
  "_id": "ObjectID('6091860fc46a35f2871560b')",
  "slug": "/product/6387",
  "website": "https://www.sdrug.com",
  "created_time": "2024-07-12T18:10:12.945+00:00",
  "image_url": "https://img-proxy.thuocsi.vn/thuocsi-testing/images/202408097fa9b885.",
  "last_updated_time": "2024-07-12T10:30:14.638+00:00",
  "name": "POLICYCLINE 25mg 25x10s (hydroxyzine)",
  "price": 267,
  "price_history": {
    "product_id": "6387",
    "unit_name": "m. 25mg"
  }
}
```

Web Scraping Project

- ❑ Created **API handlers** to fetch competitor product information from pharmaceutical company websites
- ❑ Stored the data in MongoDB and displayed it on **Buymed's internal system**
- ❑ **Tech Stack:** Golang, VS Code, Postman, React, Next.js

Experiences

1. **Networking** – met and learned from startup founders, developers, CEO
2. **Technically strong internship** – developed proficiency with tech stack
3. **Professional practices** – learned about professional coding standards and deployment process
 - I. Different environments
 - II. Git branch naming conventions

Observations + Challenges

1. **Workplace dynamics** – team culture significantly affects productivity and morale at work!
2. **Communication** – difficult to communicate with team members due to language barrier
3. **Learning Curve** – lot of new things to learn in a short time span

Lessons Learned

1. **Adaptability** – it's okay if you don't know things in the beginning, but you need to be willing to learn fast
2. **Take initiative** – meet with CEO, seek opportunities, attend events
3. **Documentation** – document every learning opportunity, challenge, new experience for the future

Opportunities

- ❑ Meeting with the CEO to learn more about Buymed
- ❑ Attend company bonding events to meet people from other teams

Entrepreneurial Activities

- Start Up World Cup

Self Initiated Learning

SGN Connex Network Event

NOC HCM Alumni Event

Travel and Fun :)

Beach @ Nha Trang

Lighthouse @ Vung Tau

Cable Car @ Nha Trang

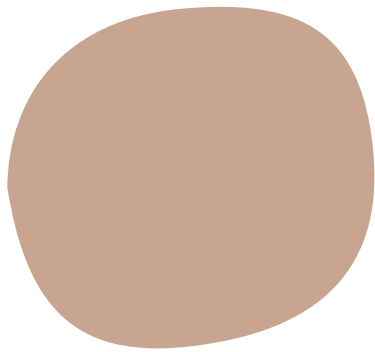

Sand Dunes @ Mui Ne

Ice Skating @ HCM

Walking around HCM :)

Thank you!
